

CREATIVE MOSAIC PROGRAM

EXPERIMENTING WITH COLORS AND TEXTURES

Workshop Objective

In this class, students will play with colors and create a project with different types of ceramic tiles and vitreous glass tiles. Working with these materials allows students to create a unique piece of artwork with full control over the color, material, layout, imagery, and overall aesthetic of a mosaic design. Participants will learn the basics of mosaics using the indirect mosaic method to create a small project. They will gain an understanding of how to prepare the surface, how to create a pattern, how to mortar your mosaic, and how to grout it and finish it.

Workshop Overview

The Creative Mosaic program offers a hands-on experience, allowing the participants to fully express their creativity. Students will gain an understanding of professional mosaic-making techniques. The program is aimed at creating a complete mosaic and includes integrated activities to generate an effective process on a training and experimental level.

Participants

Anyone interested in developing mosaics skills.
Up to 20 participants.

Program Dates

Starts on October 31, 2022
Starts on May 1, 2023
