

# GENERAL CEMENTITIOUS GROUTING WORKSHOP

**LEARNING TO MIX AND APPLY CEMENTITIOUS GROUT**

## Workshop Objective

Cementitious grout is a dense fluid that is generally a mixture of water, cement, and sand. Common uses for grout in the household include filling in tiles of shower floors & walls and kitchen tiles. It is often color tinted when we try to keep it visible.

## Workshop Overview

We offer a comprehensive training program designed to teach professionals and participants to learn and improve how to apply cementitious grout and all aspects of this grout. They will be introduced to surface preparation, materials, mixing and installation procedures, and safety.

## Participants

Professionals and apprentices that are interested in developing cementitious grouting skills.

## Program Dates

February 24th and 25th, 2023  
August 30th and 31st, 2023
