

WATERPROOFING AND SHOWER INSTALLATION WORKSHOP

LEARNING TO INSTALL A SHOWER CORRECTLY

Workshop Objective

Waterproofing is one of the most important things that must be done correctly when you are building, renovating, or repairing a shower. Shower waterproofing is the process of preparing and coating your shower with a waterproof membrane to prevent moisture from seeping in.

Workshop Overview

Students in this workshop will be introduced to various waterproofing products for shower applications including moisture management, shower systems, boards, and drains. Students will also be trained in understanding shower profiles and their benefits in commonly used showers.
